Note to teachers and students on the marking schemes for the deferred examinations

Marking schemes published by the State Examinations Commission are not intended to be standalone documents. They are an essential resource for examiners who receive training in the correct interpretation and application of the scheme. However, it should be noted that the marking schemes for the deferred examinations may not necessarily be as detailed as the corresponding marking schemes for the main sitting of an examination, which serve to ensure consistency across a large team of examiners.

Marking schemes are working documents. While a draft marking scheme is prepared in advance of the examination, the scheme is not finalised until examiners have applied it to candidates' work and the feedback from examiners has been collated and considered in light of the full range of responses of candidates, the overall level of difficulty of the examination, and the need to maintain consistency in standards between the main sitting and the deferred sitting and from year to year. In the case of the deferred examinations, this means that the level of detail may vary by question, as the marking scheme will only have been finalised for the questions attempted by the candidates who sat these examinations.

In the case of marking schemes that include model solutions or answers, it should be noted that these are not intended to be exhaustive. Variations and alternatives may also be acceptable. Examiners must consider all answers on their merits, and will have consulted with a senior examiner when in doubt.

Future Marking Schemes

Assumptions about future marking schemes on the basis of past schemes (whether for the main examinations or the deferred examinations) should be avoided. While the underlying assessment principles remain the same, the details of the marking of a particular type of question may change in the context of the contribution of that question to the overall examination concerned. Accordingly, aspects of the structure, detail and application of the marking scheme for a particular examination will not necessarily be the same for the deferred sitting as for the main sitting or from one year to the next.

CRITERIA FOR ASSESSMENT

The tasks set for candidates in both Paper 1 and Paper 2 will be assessed in accordance with the following criteria:

- Clarity of Purpose **(P)** 30% of the marks available for the task
- Coherence of Delivery **(C)** 30% of the marks available for the task
- Efficiency of Language Use **(L)** 30% of the marks available for the task
- Accuracy of Mechanics **(M)** 10% of the marks available for the task

Each answer will be in the form of a response to a specific task, requiring candidates

- To display a clear and purposeful engagement with the set task
- To sustain the response in an appropriate manner over the entire answer
- To manage and control language appropriate to the task
- To display levels of accuracy in spelling and grammar appropriate to the required/chosen register.

Schematised detail regarding these criteria is to be found in Appendix 1 of this Marking Scheme.
The Grade Grid utilised for purposes of applying the criteria for assessment throughout the marking is to be found in Appendix 2 of the Marking Scheme.
Where discrete criteria awarding is in operation, marks will be indicated on candidates' scripts in all instances in the order in which they are set out above.
Given the primacy of Clarity of Purpose (P), marks awarded for either Coherence of Delivery (C) or Efficiency of Language Use (L) cannot exceed the marks awarded for Clarity of Purpose.

Use of Codes, etc.
To assist with forming a judgement, it will be necessary to place an accurate tick at the points identified in the answer, underline all errors in candidates' work and use the proper shorthand codes as indicated throughout the marking scheme.
Use of the full range of marks available
Examiners should make themselves familiar with the range of marks available for each of the tasks set and utilise the full range of marks as appropriate in the course of the marking.
The list of texts prescribed for assessment in 2024 is set out in the Department of Education & Science Circular **0013/2022**
Assessment will proceed in accordance with the State Examinations Commission booklet, *Instructions to Examiners.*

Candidates' work is marked using the criteria for assessment. The indicative material included in the marking scheme is provided to aid examiners and is intended to broadly indicate the type of responses candidates might offer. The indicative material is not exhaustive and all appropriate valid answers should be marked according to their merits, using the criteria for assessment.

Please see Appendix 4 in relation to the procedures associated with any anomalies regarding question choice on Paper 1 or the use of prescribed texts on Paper 2.
